PMI COTTON INDUSTRIES SDN. BHD.

PMI Cotton Industries Sdn. Bhd. came from a humble background but now, more than 20 years later, has come a long way. With only three production lines back in 1989 when we were still known as Pan Million Industries (PMI), the company now houses more than 30 production lines in our factories. In 2001, PMI became known as PMI Cotton Industries Sdn. Bhd.

PMI started out as mainly a manufacturer of cotton buds and cotton balls but over the years has expanded its production lines to include other products such as facial cotton, cotton wool, facial tissues as well as cotton bandage. The company has over the years experienced steady growth within the industry. How we are able to do this is by the practise of constantly upgrading our facilities to meet market standards as well as to keep up with the fast-moving technologies available to us. PMI has not hesitated to invest in the purchase of the latest machinery in order to cope with the demanding market both in terms of quality and quantity. We keep ourselves updated with what's new and relevant in terms of machinery and would upgrade our manufacturing facilities whenever necessary.

Our in-house packaging manufacturing of plastic bag and injection moulding of canisters and rectangular boxes are added advantage in term of consistent in product quality and reliable supply couple with competitive in pricing.

The company core business activities include the manufacturing and distributing of personal hygiene products such as cotton, Cotton-based and soft tissue paper products under her own brands of Pan-Mate[®], Caremate[®] and COT-MATE[®]. PMI also specialised in producing finished goods under OEM arrangement on our customers' requirements.

PMI was awarded the prestigious ISO 9001 : 2000 certificate in Quality Management System (QMS). In addition, PMI also obtained the Environmental Management System (EMS) certificate ISO 14001 : 2004 for its manufacturing facilities. We pride ourselves of these achievements and will continue to provide and maintain a high standard of quality products and excellent services to our business partners.

Mission/Vision

No one achieves anything without first setting goals. But you cannot first set your goals without first having expectations. Most importantly, however, is that you cannot expect anything without commitment. Therefore, this is our commitment to you.

Mission

We serve to provide:

- Quality in Products
- Competitiveness in Pricing
- Professionalism in Service
- Punctuality in Delivery; and
- Constant improvement of Facilities

Vision

We aim to: Be at the forefront of manufacturing and marketing personal hygiene cotton and cotton-based products.

- Continue to grow with the personal hygiene market both locally and abroad.
- Expand our customer based internationally as well as locally on OBM, ODM and OEM.

PMI COTTON

has been a name trusted since 1989 and, over the years, PMI has created not only business, but relationships.
